

Strike Bulletin #4

2014 May 21

PICKET LINES WILL ONLY AFFECT VSB EMPLOYEES

All schools and employer work sites will be picketed on Monday May 26th. VESTA members will not picket out workers who are **not** employees of the Vancouver School Board and who regularly report to work at that site.

For example, VESTA members will not picket out daycare workers and some construction workers whose worksites are located at schools or on district facilities where our members work. We will also not restrict access to the school site for families attending the daycare. For sites where this will be applicable, your picket/shift captain will need to coordinate passage through the picket lines to allow these workers, who are **not** Vancouver School Board employees, to enter their worksites.

Please note that passage through our picket lines, with our consent, will not be extended to third-party deliveries made to the site or to other non-VSB employees as they do not report to work at the worksite that is behind a picket line (For example, this would include Hydro or Telus personnel).
